"I will admit at first I was skeptical, I have put many hrs, and spent lots of my money trying to break into the EP security field. Not that I lack experience, but as we know it takes the right opportunity to come along to finally catch a break. After sitting and listening to the first 15 minutes of his Seminar, I was drawn in and at that point I was really glad I decided to attend. He draws you in and doesn't bs you like so many " Executive Protection Companies/ seminars " Try to do. He is full of useful knowledge, and the day flew by as I was introduced to techniques to market myself better. So of which I was reluctant to try in the past. But After Following his plan to get yourself noticed, market your skills, and how to be seen by those who are looking for people with your skills. Honestly After a week of setting up my LinkedIn account, I got a couple job offers, And did end up taking a job working at Cuvée Night club the High end Vip club here in Chicago.( ranked #2 Place in the country for Celebrity Sightings by Playboy).. So I can say Thanks to John's information and guidance I am on my way to building a career in the Vip / Executive Protection Field."

"Mr. Kearney is without a doubt a dynamic speaker with a "down to earth" personality. He has a way of presenting information that will bring about positive group interaction and ideas. In other words, if you go to Mr. Kearney's events you WILL be talking, exchanging thoughts, business ideas and experiences with everyone in the room !! I have been to a few seminars were folks in the room don't even interact with each other for hours !!! That will NEVER happen at a Mr. Kearney's seminar !!! And you will walk away fully satisfied with what he teaches !!!"
